GOVERNMENT TO TRY TO CLOSE ITALY TROUBLE

Facists Are Expected To Outline Program Of Conciliation

BILLION BUSHELS OF WHEAT that's in Russia—first time since the war that she has beat America in her wheat crop—billions bushels in 1930—experts now say that the world's area will have to be re-allocated—and they say Russia is not doing things—she is worth WATCHING as to PROGRESS.

HAPPY BOY—Joe Brohan of San Francisco—been deaf for eight years—caused by attack of DIPHTHERIA, so the doctors say—who knows but that it was not the vaccination that caused it—it has caused much worse things—even death in thousands of cases, and lots of CANCER that came on the scarred tissue of vaccination—be careful of it—it doesn't be fooled by medical fallacies.

MAYOR MAKES SHOES—in Newburyport, Mass.—a man run for mayor—said "down with the BLUE BLOODS"—he won—now has incorporated a \$30,000 factory for making shoes—he will make shoes with the blue bloods—**GOES back there** coincides with the government's policy.

GOING TOO FAR—a busy man—he liked his family physician—he called at his office—was met by the office girl thus—"Have you an appointment with the doctor?"

"No."

"Must you see him today?"

"Yes at all possible, I would like to."

"I'll try to get you in after the next patient. Just step into this room and take your clothes off."

"But really, I—"

"That is the only way the doctor will see you."

"O, all right."

Ten minutes later he was in the doctor's office.

"Well, young man, what seems to be the trouble?"

"Nothing, sir, I called to get your subscription to The Free Press."

"GET OUT, and take your clothes with you."

HE DID.

STRANGE THINGS—I am not in competition with the feature writers and artists but—the city of Reno, Nev., is 100 miles further west than Los Angeles—Jacksonville, Fla., is farther west than Cleveland, Ohio—One travels south from Detroit to reach the nearest part of Canada—At Panams the sun rises on the Pacific and sets in the Atlantic, due to a gigantic land in the isthmus—N. Y. City lies west of the Pacific—at least that part of the world that touches Africa and Chile. **LOOK AT YOUR MAP AND GLOBE**. A globe is a handy thing to have at home for students and also grown-ups.

SEVERAL HUNDRED BAND-MEN—all assembled played the Memorial day music to many thousands of worshippers of Lenin in Moscow—they stood before Lenin's tomb—well they may—did much for those folks who for all their lives could not own a piece of land or be anything but servants in Russia until Lenin started to work for them—the book "The New Republic" was put into action by him. He was a thinker, against those who suppressed the masses and we need workers like that everywhere today.

GEE—to bed at ten o'clock—that's what Otto Jucker must do—if he stays up later he must serve **FIVE YEARS** in reformatory at St. Cloud, Minn. Judge Edward Wheeler made the sentence—I BET HE DOES NOT GO TO BED AT TEN EVERY NIGHT.

KIDS—don't suck caramels while blowing up balloons—Alfred Zabrowsky of Port Washington, N. Y. did that, and he blew so hard, the rubber balloon burst and he CHOKED ON THE CARMEL—now he's dead—it is hard to do two things at one time and do them right.

As We See It

France Rejects Texas.

There was a time not so long ago when just about everything in the way of "liberal entertainment," to use a mild expression, was supposed to originate in Paris. Night life there was the acme of naughtiness for tired American tourists who had gone to Paris seeking relaxation, many of whom were pictured as forgetting the restraints which guided their course of conduct back home.

But now it seems that the shoe is on the other foot. Texas Guinan, New York night club hostess, and her girls and jazz band, embarked from our shores with the idea of showing Parisians what real American whoopee looks like. They were all set to fill a summer's engagement at one of the many amusement places in the French capital. That is as far as they went for a bunch of stern government officials, not at all interested in feminine pulchritude, at least in the brand that is popular in America, refused them admittance. So Texas must seek new worlds to conquer, or come back home.

That even France may have been shocked if the Guinan Gang had been allowed to compete with French attractions was hinted by passengers on the Paris, the liner which took the gang to France. Tex said she had a "whale of a time" on the steamer but other passengers said many other things. Among the statements is an account of ship's entertainment in which the Guinan bunch appeared attired in nothing more than two fans—one in front and the other in the back, and the

Good Health Club

EXTRACTS

These extracts from the pen of Lester Lee, M. D., will prove very interesting and very useful.

Certain familiar figures are always with us—age, life, death, disability, necessity, and old age. Also hunger, sickness, weakness, disease, poverty, and dependency. Some of these figures enter into our lives, and one of them, death, comes to all of us. Can anything be done to change the situation?

Death comes to all of us, but in the matter of the other figures of human life, better health can and would change the whole situation, the needs and weaknesses of human life come as the result of the consumption of food. Therefore, the better food, and such better food is available from the plant world.

Seeking to banish disease, and the need of charity, from human life, how can we expect to accomplish it? Human health guarding would seem to come from the eating of better food, as food touches the human problem as it affects man's provision of nature. Food is here, enough to eat, and to spare, yet the proper use of plant food is far from understood and seldom rightly applied.

Lone Tree

LONE TREE, Ia.—(Special)—Lone Tree has been entertaining one of Iowa's literary celebrities recently.

It would banish disease, I abandoned my belief after many years of experimentation on myself and much self-denial and changed my diet entirely for the sake of food, making notice of this change public, September 5, 1928. Whenever I discover that I am in the wrong, I hasten to admit my mistakes and rectify them.

I am believing up to this moment that the proper and safe food for man is of vegetables and fruits. I believe that the tubers and root vegetables need softening by cooking, and that the green, raw, or some of it, that fruit can be eaten either raw or cooked. I am in considerable doubt as to the need or wisdom of eating much of the cereals, grains, or breads made from them. I am satisfied that flesh, fowl, fish, eggs and milk can be included in a human diet but that they are not essential to human health, tend to shorten life, and add trouble to humanity.

Wheat and Grain

Wheat is hard and crystalline to prepare it for food is laborious. The talk about a super-food value in wheat can be said to be true if the estimate of its value be based on chemical analysis. To eat the wheat is another side of the question, and the only way to judge of its food value. Food cannot be estimated alone by its chemical reaction.

Chemical reaction is not the same as human digestion. Chemicals will dissolve wheat and wheat bran, but human digestion is not the same as chemical laboratory reaction. Bran turns rancid easily, in the

audience is reported to have been "struck with dismay" when, during the entertainment, some of the fans closed up.

Can it be possible the time is coming when French mothers will warn their children to remain away from New York when they grow up as American mothers have warned their progeny about the wickedness of Paris? The action of the French government makes it look that way.

Better Restaurants Coming.

The average restaurant must look to its laurels if it wishes to survive. Cigar and drug store lunch counters, tea rooms, sandwich, coffee and bakery shops, dairy lunch counters, the "Pullman" lunch car, hot dog stands and wayside inns, many of which are farm homes that serve meals to tourists, are all cutting into the legitimate restaurants with the result that thousands of them have failed during the past two years. The situation has become so serious that the National Restaurant Association has started a nation-wide program of education with a two-fold object:

1. Operators are to be taught how the public can be served at a profit with the highest standards of food, service and sanitary requirements at reasonable prices.
2. The public is to be told just what it has a right to expect in a first-class eating place.

The campaign will urge legislation establishing minimum standards of sanitary requirements in restaurants, list mechanical equipment necessary, establish rules of conduct for every employee from manager to porter. A model restaurant bill, sponsored by the association, has already been introduced in several state legislatures.

Hence, we see that the public is to profit once again as a result of competition. The time has passed when the public will "swallow" any old thing. One of these things is coffee. Many

a restaurant owner has lost trade because of serving inferior coffee. Also the public does not like to see roaches exploring where food is kept. Higher standards are most certainly needed in many restaurants.

Sense From Borah.

Senator Borah makes a strong defense of trade with Russia and belittles those who fear the spread of communism when he says that to be consistent those who have magnified this alleged evil should ban communistic literature.

"The most brilliant and persuasive propagandist for communism is Leon Trotsky," declares Borah. "He is now permitted to tell the American people all the vices of capitalism and all the virtues of communism. He is not only permitted to do so but is being paid to do so. This literature goes to every newsstand in the United States and to every public library. Books and pamphlets are also printed and circulated. I am one of those who believe that free speech and free press include the right to speak and to publish those things which I do not like and which I utterly disbelieve as well as those things I do like and in which I do believe. Why don't these people who are opposing Russia try to stop these publications? That would be exceedingly absurd but it would be in exact accord with their theories."

"One cannot gain knowledge by remaining ignorant," an obscure stump speaker in London declared a few weeks ago, which was used as a text by an editorial writer. Any actual menace to this country would be resisted to the last ditch by all real Americans, Senator Borah included. But there is no reason to become unduly excited over a bogey-man. The fact that one of the leading magazines in the United States is presenting the Russian viewpoint in its columns should be sufficient proof that any danger from that quarter is mostly

imaginary. The heads of the magazines do not endorse the series of articles from the mere fact of publication no more than an editor agrees with everything printed in his newspaper. One can be tolerant without being in full agreement on matters of public policy.

Making The Farm Pay.

That "cooperation pays" is evidenced by the fact that the Dairymen's League Cooperative Association of New York state has handled a bigger percentage of its supply and surplus products for its farm members during April than for any April since 1923. While the dairy outlook May 1 was not bright, nevertheless dairy and poultry farmers are in a better economic position than other farm industries. On April 15 dairy products were 27 points below prices of a year ago, fruits and vegetables 67 points below, cotton 42 points below, meat animals 40 and grain 36 points.

It looks like scientific cooperation pays in the dairy industry.

Some fervid love letters are being read into a divorce case in the east. The man in the case must be wishing that he had sense enough to "say it with flowers."

If you think business is bad in your line imagine the task of an American salesman who tried to sell Mahatma Gandhi a pair of suspenders.

Our Platform for the People Is:

1. Less taxation.
2. Fewer State Commissions.
3. Universal school books.
4. Lower freight rates.
5. Return of river transportation.
6. A cleanup of some state institutions.
7. More efficiency in public offices.

And yet I grind my teeth in desperation
And will not quit.

To be quite frank, I cherish the conviction.

That I am not the calm, unruffled

To master golf, and have no predilection

For such a baffling and elusive sport.

Or, like a person in the darkness groping

Toward some far light, I drag my way along.

For in my innocent heart I can't help hoping.

That I am wrong.

The depression in America, says a Swiss economist, is the fault of women. However, having been blamed for something or other since Adam made his complaint, they probably won't worry much.

DISTRICT NO. 3.—District three will include all of the participants who reside outside of the city limits of Muscatine and WEST of the Cedar River to Moscow, thence from Moscow west of the C. R. I. & P. Railroad to the city limits of Muscatine on the north, thence west of the Mississippi River from Muscatine south. At least one, possibly two of the Grand Prizes, and as many cash awards as there are active candidates must be awarded in this district.

The Plan

The object of the big distribution is primarily to increase the already large circulation list of The Mid-West Free Press, arrearages and advance subscribers, at the same time afford our friends and readers a parallel opportunity to profit, and in through their spare time during the weeks. So it is a plan that works best to the ultimate good of all.

In order to gain the end quickly, naturally, the most liberal and attractive prizes ever offered by a newspaper in this country have been made ready for distribution.

Those who participate most heartily,

ambition and energy are the only

adopted is the fairest and most equitable. There will be no extra votes given or any kind whatsoever other than augmented during this competition.

There will be any long term plan. The plan of the campaign is hard and simple and is fully explained.

At the very outset that there will be no "particular" contest, no competitive proposition.

Men and women, all boys and girls, no element of chance enters this competition is the no losers.

How the Prizes Will Be Awarded

The four major prizes will be awarded to the three highest in each district and the most popular candidate irrespective of district. The one polling the highest number of votes taking first choice of the four awards, the one polling the second highest number of votes taking second choice and so on until the major prizes have been awarded.

The candidate polling the next highest num-

ber of votes in each district after the four major prizes have been awarded will receive \$150 in cash each, then the candidate polling the next highest number of votes in each district will receive \$75 in cash each.

Every candidate will be paid a commission of 10 percent on all the business they secure as they turn it in at campaign headquarters.

How To Enter The Campaign

The first step in order to become a candidate and compete for a prize, is to clip the nomination coupon appearing on this page, fill in your name and address and mail or deliver to the Campaign Department of The Mid-West Free Press, Muscatine, Iowa. This coupon entitles you or the person whom you might nominate, to 5,000 FREE votes. These votes are given you as a starter, and speeds you on your way to win. Only one such nomination coupon will be accepted for each candidate entered.

THE ADVISORY BOARD

It is the sincere aim of this newspaper to conduct the election, from start to finish, in a fair honorable and impartial manner. Every precaution has been taken to safe-guard interests of participants and absolute honesty in all dealings is guaranteed. However, not all wisdom lies with any one man or institution, and for that reason, an Advisory Board has been decided upon, whose functions shall be to decide any question of sufficient moment that might happen to arise during the competition and from which a committee shall be selected to act as judges and count the votes the last night of the election, names to be announced later.

Rules and Regulations

1. Any reputable man, woman or child, residing in Muscatine County or surrounding counties is eligible to enter this election and compete for a prize. Nominations may be made at any time during the campaign.

2. No employee or near relative of any employee in the Midwest Free Press office is eligible to enter this distribution. The Midwest Free Press reserves the right to reject any nominations.

3. The winners of the prizes will be decided by accredited votes, said votes being reported to the campaign headquarters, and votes issued according to the rules.

4. Candidates will be allowed to collect subscriptions and renewals as well as entirely new subscriptions and votes will be issued on both.

5. Candidates will be allowed to collect subscriptions and renewals as well as entirely new subscriptions and votes will be issued on both.

6. Votes are free. It costs the subscriber nothing extra to vote for his or her favorite. Subscribers should ask for votes when paying their subscriptions.

7. Votes cannot be purchased. Every cent accepted through the election department must represent subscriptions.

8. Votes are not transferable. Candidates can not withdraw in favor of another candidate. Should a candidate withdraw from the campaign his or her votes will be cancelled. Neither will it be permissible for candidates to give or transfer subscriptions to another candidate. Votes on such transferred subscriptions will be subject to disqualification at the discretion of the management.

9. Any collusion on the part of candidates to nullify competition or any combination arrangement or effect to the detriment of candidates of this newspaper will not be tolerated. Any candidate or candidates entering into or taking part in such an agreement, arrangement or effect will forfeit all rights to a prize or commission.

10. Any ballots issued on subscriptions may be held in reserve and voted at the discretion of the candidate but it is distinctly understood that candidates will not be allowed to use their credits in any manner detrimental to the campaign of other candidates. The printed coupons appearing from week to week in this paper must be voted on or before the expiration date appearing thereon.

11. Extensions on subscriptions will count votes according to the regular schedule prevailing in the period in which they are turned in, with the exception of the final period. No extra votes will be given on extensions during the final period.

12. No statement, assertion, or promise, either verbal or written, made by any representative, solicitor, agent or candidate, varying from the rules and statements published through the columns of this newspaper will be recognized by the publishers or the campaign management.

13. In case of typographical or other error, it is understood that neither the publisher nor the campaign manager shall be held responsible, except for the necessary correction upon the same.

14. Every candidate is an authorized agent of the Midwest Free Press and as such may collect subscription payments from present as well as from new subscribers.

15. It is distinctly understood and agreed that candidates will be held responsible for all monies collected, and that they will remit such amounts in full at frequent intervals or on demand to the Campaign Department.

16. There will be several big prizes awarded, besides a 10 per cent cash commission, to all ACTIVE non-prize winners, 10 per cent will be paid to all candidates as they turn subscriptions in to campaign headquarters, but it is distinctly understood that in the event ANY candidate becomes inactive, failing to make a weekly cash report of at least one-half subscription, he or she will become inactive and thereby forfeit all rights to a prize. The 10 per cent commission which has been paid to all Grand Prize winners will be deducted from their prize at close of the campaign.

17. To encourage the public to turn in their votes, the race will be brought to a close under a "sealed ballot box" system, and will be under the personal supervision of three or more judges selected from the advisory board. During the last week of the campaign, the box—locked and sealed—will remain in the vault of a local bank. Candidates and their friends will deposit their final collections and signatures. And not until the race has been declared closed will the seals be broken, the box unlocked and the judges begin the final count. In this way no one, not even the campaign manager, can possibly know the voting strength of the respective candidates, which precludes any possibility of favoritism and insures fairness to the minutest degree.

18. The Midwest Free Press reserves the right to amend or add to the rules of this campaign for the protection of both the contestants and this newspaper. The right is also reserved to add to or increase the list of prizes or to accept contract or partial payment subscriptions if advisable.

19. Twenty-five thousand extra votes will be given on each new yearly subscription during the first period of the campaign; 15,000 extra votes will be given on each new yearly subscription during the second period; 10,000 extra votes will be given on each new yearly subscription during the third period but no extra votes will be given on new subscriptions during the last week of the campaign.

20. From July 1st to July 11th, inclusive, will be known as "opportunity days." 150,000 extra votes will be given for every three yearly subscriptions, or the equivalent, secured during "opportunity days." 100,000 extra votes will be issued for each six-year subscription secured. However, only ten six-year subscription coupons can be voted by any one candidate during "opportunity days."

21. Two hundred thousand extra votes will be given for each three yearly subscriptions, or their equivalent, turned in during their first week of entry in the campaign, and one hundred thousand during their second week. At no time during the campaign will there be any extra-vote offers other than those outlined.

22. The Midwest Free Press guarantees fair and impartial treatment to all candidates, but should any question arise the decision of the management will be absolute and final.

23. Campaign opens today—closing August 22nd.

24. All extra-vote certificates will be issued at the close of periods.

In accepting nominations candidates agree to abide by the above conditions.

BE PAY DAY →

\$5,000 IN CASH

A special fund of \$5,000.00 has been set aside to be distributed in the form of salaries among the ambitious participants. A commission of 10 per cent will be paid all candidates as they turn their subscriptions in at campaign headquarters. Think of it, Ten per cent of every dollar you collect goes into your pocket if you do a good job. This arrangement assures ready cash and fine compensation for every active candidate and means that there will be no losers in this campaign. EVERYBODY WILL WIN SOMETHING. GRAIN VALUES CLOSE UNEVEN IN WHEAT PIT

Trade Featured Comparatively Heavy Selling

CAGO.—(INS)—Grains closed uneven today. The late trade featured by fairly heavy selling September and December wheat private reports of rains in Canada, where moisture is badly needed.

Closing prices for wheat were $\frac{1}{4}$ to $\frac{1}{2}$ higher for June and July, but unchanged to $\frac{1}{2}$ lower for other features.

Corn was steady to $\frac{1}{2}$ higher and oats to $\frac{1}{2}$ up. Ry. was $\frac{1}{2}$ to $\frac{1}{4}$ lower.

September wheat touched 57%

earlier in the session, a new low on the crop.

Firmness in Liverpool and unfavorable crop comments from the Canadian northwest brought in good buying of wheat futures here during early trading. Values worked up around 1c above the previous finish before there was any noticeable selling pressure. A slight reaction followed, but the undertone during the forenoon was strong.

Winnipeg was 1 to 1 $\frac{1}{2}$ up.

Liverpool was $\frac{1}{2}$ to $\frac{1}{4}$ higher in line with the bullish crop news from Canada.

Private crop estimates for June were bearish. The winter wheat crop was put at 365,000,000 bushels, or 693,000,000 bushels and spring wheat estimates ranged from 205,000,000 to 230,000,000 bushels.

Corn displayed a firm undertone, but trade was very cautious in view of the unsettled condition of the New York Securities market. Weather over the belt was generally favorable.

Oats and rye were slightly higher in general trend.

Carrot receipts were:

Wheat 22, corn 42 and oats 4.

CHEAGO.—(INS)—Cash grain close:

The CLUE of the SCARLET RIBBON

Synopsis: Because of her love for Barry Grey, a famous movie star, Clarice Lester is innocently entangled in one of Hollywood's most thrilling unsolved murders. The death of one closely connected with the case has unseated her lips and she tells the "true" version for the first time. When the police find my love letters to Barry, they implicate me in his death. Thornton Trainbridge, a newspaper man, turns detective to prove my innocence. Among those suspected are Jim Conklin, Barry's chauffeur; Florence Williams, famous actress; and Mrs. Bonita, Barry's drug addit; Aunt Kate, who knows more than she will admit; Pierre Caston, head of the dope ring to which Barry belonged, who wants a mysterious list of names. Sam Helwig, his color, was the man of mystery who stole the boy of Wilbur, the author. This is the story of a mysterious woman who rode away in Florence Williams' auto from a secret meeting.

By E. V. BURKHOLDER

IT was Thursday morning of that week that the body of Sam Helwig was found in a small furnished room where he had lived for two weeks. It was not until after his death that we knew that my man of mystery was Sam Helwig.

The police got the name from certain letters and papers found in his room. But the name didn't interest the police much. The fact that he had been shot under the arm with a steel jacketed bullet in a very highly educated man. His face didn't show it. He was a gangster and I suppose had served terms in prisons. I hadn't ascertained that he had been a soldier. They didn't attack him.

Perhaps it was because his life moved so simply and he had nothing to do but play in narrow channels that his sacrifice appears so great. For it was a sacrifice. He was the companion of Pierre Caston as once I had heard him say.

He could have gone some his way and forgotten all about the murder of Barry. Most people would have done that. I think I would. I knew that every man who had been shot in his life was in danger.

Sam Helwig had come to the house Wednesday morning in a great state of excitement. I hadn't seen him since the night in the old house and it was evident that he was not in the same frame of mind fully from the excitement of that night. He was white and nervous.

"Clarice," she gasped when she sat down. "Barley has come back to town."

"Barley back?" I demanded. "I didn't know that he had left."

I did know that, but I had to say something and that came to my mind.

"Yes, he left after that night," she explained. "I know he left, because I would have known if he was in town. Last night he called me. He's back at that old house. But something has happened. He's acting funny again."

"What's the matter with him?"

"I don't know. He won't let me see him."

"Won't you let me see him? Why did he say 'no'?"

"I don't know. I went down to that house, but he wouldn't let me in. He told me to go away and leave him alone."

"But he's all right in a couple of days."

"But—but if he stays here the police will get him. I don't know what he would do. He's been here for two weeks before he would have been better off if I had kept my mouth shut."

The detective to whom I told my story whistled when I had finished. "That's all he or any of the police ever did know," he said. "Sam Helwig, his life was in danger."
